GitHub: <https://github.com/towfiq-ul> | LinkedIn: <https://www.linkedin.com/in/towfiq106>

Professional Summary

Senior Software Engineer with 7+ years across backend systems, including hands-on delivery of production Laravel/PHP applications spanning government platforms, private company engagements, and open-source tooling. Comfortable owning a Laravel codebase end-to-end — schema design, Eloquent, queues and service providers, Blade views, RBAC, and deployment tooling — alongside a primary background in Java/Spring Boot microservices for high-throughput fintech platforms.

Laravel / PHP Highlights

- Delivered Aerotia International's public website end-to-end: Laravel 12 (PHP 8.2) JSON API + Blade admin CMS, paired with a React 18/TypeScript frontend, as a private company engagement
- Built Aerotia Accounting, a Laravel 9 ledger/accounting admin portal with full CRUD, dashboard, and admin-user management, on a Dockerized local dev stack (MySQL, Mailpit, Adminer)
- Authored and maintain laravel-gitstamp, an open-source Composer package generating deploy-time git version stamps — MIT-licensed and CI-tested across Laravel 10–12 (github.com/m-tech-org/laravel-gitstamp)
- Designed modular Laravel RBAC (roles, permissions, policies) drop-in modules for an HRMS user/role-management system
- Built the Laravel backend for PREVENTO, a healthcare Android app (Google Play) delivering personalized care plans and doctor-patient messaging, with MySQL, AWS, and Firebase integration
- Delivered government Laravel systems: an Annual Confidential Report generator for the Ministry of ICT, and an Inventory Management System for the Electoral Training Institute

Core Expertise

- **Backend:** PHP, Laravel 9–12, Composer, Eloquent, Blade, RESTful APIs
- **Frontend Integration:** React, TypeScript, Vite, jQuery
- **Databases:** MySQL
- **DevOps:** Docker, GitHub Actions CI, Git
- **Cross-stack:** Java, Spring Boot, Microservices

Work Experience

Senior Software Engineer – Exabyting

May 2024 – August 2026 | Dhaka, Bangladesh

Augmented resource at bKash Limited. Built and maintained core backend services (Customer App MW, FinRec, PIN Reset MW) on Java / Spring Boot, DynamoDB, and Kafka, processing 2.5M+ transactions daily.

Software Engineer – Exabyting

December 2019 – November 2021 | Dhaka, Bangladesh

Developed government and private Laravel web applications, including PREVENTO (a healthcare Android app backend), an inventory management system for the Electoral Training Institute, and an Annual Confidential Report generator for the Ministry of ICT. Worked as partner team with bKash Limited's Solution Engineering Team.

Software Engineer – SELISE

November 2021 – May 2024 | Zurich, Switzerland (Remote)

Extended ThingsBoard into a multi-tenant IoT middleware platform for a Swiss enterprise customer (primarily Java-based; included for continuity of employment history).

Key Laravel Projects

- **Aerotia International** – Laravel 12 (PHP 8.2) JSON API + Blade admin CMS, React 18/TypeScript frontend

- **Aerotia Accounting** – Laravel 9 ledger/accounting admin portal, Blade, Docker
- **HRMS User & Role Management** – Modular Laravel RBAC package
- **laravel-gitstamp** – Open-source Composer package, MIT-licensed, CI-tested across Laravel 10–12
- **PREVENTO** – Laravel backend for a healthcare Android app (Google Play), doctor-patient messaging, Firebase-integrated
- **HR ACR (Ministry of ICT)** – Laravel employee report generator
- **IMS (Electoral Training Institute)** – Laravel inventory management system

Education

B.Sc. in Computer Science & Engineering – International Islamic University Chittagong (2014 - 2019)

Awards & Achievements

- IIUC IUPC 2017 – 2nd Position (Coach)
- EDU Programming Contest 2018 – 5th Position (Coach)
- CSE Week Programming Contest 2016 – 5th Position
- Solved 500+ competitive programming problems
